

***Ag Equipment Intelligence***<sup>®</sup>

***CUSTOM RESEARCH REPORT***

**Alternatives to Fossil Fuels  
in Farm Machinery ...  
Overview & Outlook Through 2027**

***September 2022***

***A follow-up to the March 2022 report, [Electric Farm Machinery: Outlook Through 2027](#),  
Ag Equipment Intelligence's newest custom research report provides an overview of fuels  
& technology aimed to displace petroleum-based diesel use in farm machinery.***

# Table of Contents

**Executive Summary ..... 3**  
**Tables & Charts**  
 Estimated U.S. Greenhouse Gas Emissions by Sector, Including Electricity Use, 2020 .....3

**SECTION I: Alternative Fuels: A Working Definition ..... 5**  
 A Pros & Cons Survey of Alternatives Fuels.....6  
 Electricity .....6  
 Hydrogen/Ammonia .....8  
 Biofuels .....9  
     Ethanol .....9  
     Biodiesel .....10  
     Renewable Diesel.....10  
     Biomethane .....11

**Tables & Charts**  
 Sources of U.S. Electricity Generation, 2021 .....6  
 Farmer Concerns about Electric Machinery .....7  
 U.S. Biofuels Supply and Disposition in 2021 .....9

**SECTION II: Alternative Fuel Equipment Development ..... 13**  
 Electricity .....13  
 Lithium-Ion Battery Cost Declines as Production Doubles: Explaining Wright’s Law .....14  
 Hydrogen.....16  
 Versatile Sees Future for Hydrogen-Powered Farm Equipment in Manitoba.....16  
 BioFuels .....18

**Tables & Charts**  
 Estimated Electric Vehicle Lithium-Ion Battery Pack Cost – 2008-2021 .....14  
 Renewable Diesel Production Expected to Grow .....18

**SECTION III: Handicapping the Alternative Fuels Race ..... 21**  
 Renewable Diesel & B100 Blends, Along with Ethanol .....21  
 CNG/Biomethane.....22  
 Hydrogen Fuel Cell Electric .....22

**Tables & Charts**  
 Farmers’ View of Alternative Fuels for Equipment Power.....21

**SECTION IV: Equipment Dealer Perspective..... 23**  
 Dealers Share Interest from Customer Base in Adopting Alternative-Fueled Equipment .....25  
 Dealers’ Level of Concern in Adding More Fuel Choices to Sell & Service Offering .....27  
 Dealers Anticipation of Increased Capital Investments  
     Needed to Participate in New Fuel Choices.....29  
 Difficulty of Fuel Choices in Integrating into Dealership .....30  
 Projected Market Shares of Fuel Sources by 2027 .....32

**Tables & Charts**  
 Dealer Survey: Customer Bases Served.....23  
 Fuel Technologies & Difficulty for Dealers to Integrate  
     into Current Structure — By Customer Base Served .....24  
 Dealers Expected Interest from AOR in Alternative-Fueled Equipment.....25  
 Dealers’ Level of Concern in Adding More Fuel Choices to Sell & Service Offering .....27  
 Expectations for Increased Capital Expenditures in New Fuels .....29  
 Difficulty of Fuel Choices in Integrating into Dealership .....31  
 Dealers Projection of Power Sources Share of Market by 2027 .....32  
 U.S. Dealers Projection of Power Sources Share of Market by 2027.....32  
 Canadian Dealers Projection of Power Sources Share of Market by 2027.....32

**Appendix, Additional Reference Figures ..... 33**  
 Primary Customers’ Interest in Electric Farm Machinery .....33  
 Concerns about Selling & Servicing Both Diesel & Electric  
     Farm Machinery Over the Next 5 Years .....33  
 Technician Skills/Availability .....34  
 Facility Investments .....34  
 Machine Inventory/Investment.....35  
 Parts Inventory/Investment.....35  
 Sales Skills/Availability .....36  
 Comparative Matrix: A Pros & Cons of Alternative Fuels.....37  
 U.S. Monthly Biodiesel Production – 2018-2020.....39  
 Electrification in Agriculture .....39

**Electric Farm Machinery: Outlook Through 2027 ..... 40**

**Additional Reports from Ag Equipment Intelligence ..... 41**
